[Next Step](#)

- Come to a point of service (City Hall, the library or the recreation centre) with the necessary supporting documents to create your resident's card.

## Subscribe to a card

### YOUR CONFIRMATION

All you have to do next is go to city hall, the library or the recreation center to have your resident's card activated. Be sure to take a piece of photo ID and proof of residency with you.

#### Here are the documents you need:

##### 1. Supporting documents required:

###### o People aged 16 years or older

You must present a piece of photo ID and proof of residency. If your address does not appear on your identity card, the following documents are accepted as proof of residence: lease, transcript of marks, bank statement, or a public utility bill (issued within the past three months), municipal property or school tax bill (issued in the past year), or a driver's licence.

###### o People aged 15 years or younger

As the parent making the request you must provide a proof of residency for yourself (see above) and a document proving your family link to the child: his or her birth certificate, hospital card or school report card.
